PROGRAMMING SEQUENCE :

Press the programming button while inserting the wire harness into TOYDA module. When the LED turns ON, release the program button and start the engine with a functional key. When the LED flashes, press again until the LED turns OFF and the TOYDA module will be programmed. Turn the engine OFF. The module is now ready for use.

IMPORTANT NOTE : During the installation, the vehicle wires must be the exact same color with the list below otherwise the TOYDA mudule may not work.

Vehicles compatibility list and vehicles wires colors to be connected
