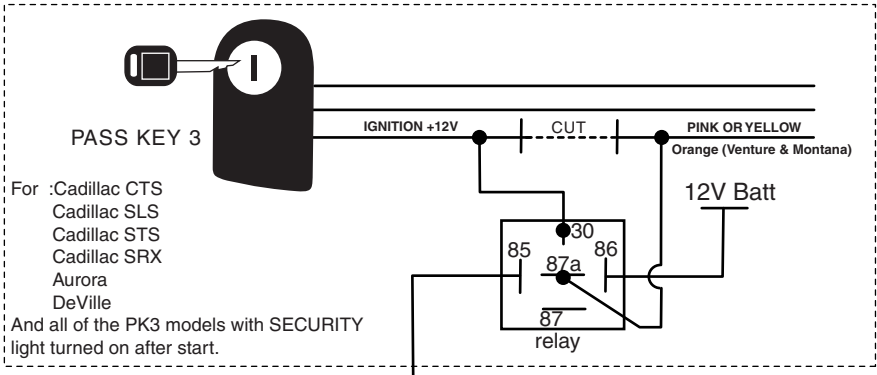
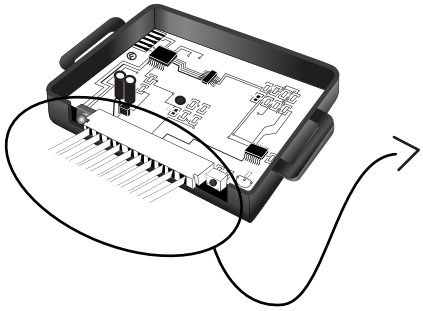
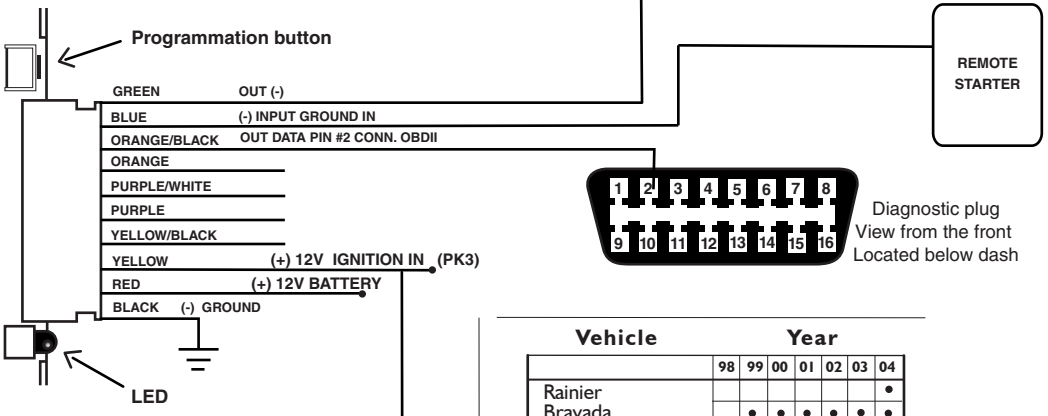
*** This module does not control factory alarm**



For :Cadillac CTS
Cadillac SLS
Cadillac STS
Cadillac SRX
Aurora
DeVille
And all of the PK3 models with SECURITY light turned on after start.

GM-DATA
PK3 - Passlock II





PROGRAMMATION SEQUENCE

1 Press the programming button while inserting the wire harness into GM DATA (PK3 - Passlock) module. The LED will turn ON to indicate the programming mode. Keep the programming button pressed while turning to the ignition ON. Release the programming button once the LED flashes rapidly.

2 Start the engine with the key. The LED will turn off to indicate the module has been programmed for either PK3 or PASSLOCK. Turn the key OFF, the module is now ready for use.

Option : Ignition (+) input use for select vehicles equipped with PK3 with SECURITY light turned on after start.
See chart below.

Note: Neither the manufacturer or distributor of this module is considered to be responsible of damages of any kind indirectly or directly caused by this module, except for the replacement of this module in case of manufacturing defects.

Part Number : GMDAPK3

Made in Canada

VR: 1.2
Revision : April 23 2004
