IMPORTANT

Make sure you have a cellular data plan to use the *EVO-START* (Internet provider charges may apply). The EVO-START application must be able to communicate via cellular or WiFi.

The network coverage may vary depending on location of the vehicle, verify the network coverage at **WWW.EVO-START.CA**

INSTALL EVO-START APPLICATION

STEP 1	Go to the **APP** Store (Apple) or **Play Store** (Android) on your smartphone
STEP 2	Search for *EVO-START* application
STEP 3	Install application

CREATE YOUR ACCOUNT

STEP 1	Launch the newly installed *EVO-START* application on your phone
STEP 2	Fill in all the required fields
STEP 3	Once completed, click Done

CONFIGURE VEHICLE

STEP 1	Go to Add a vehicle
STEP 2	**Enter the activation code**
STEP 3	Fill in vehicle information
STEP 4	Once completed, click Done

|		
GREY		**Idle** There are no recent or pending commands.
BLUE		**Action in progress** A command is currently being processed. Delays may occur depending on normal fluctuation delays. Troubleshooting: Please ensure to have a connection to the internet while using the application. If you do and the problem persists, please deactivate and reactivate your internet connection to re-establish the network connectivity.
SOLID GREEN		**Action confirmed** A command was sent to the remote car starter and the action was successfully completed. Processing delays may vary depending on vehicle model and installation type. Troubleshooting: If the command was confirmed but was not executed, try again. If the problem persists, please contact your installation centre.
STRIPED GREEN		**Action unconfirmed** A command was sent but action cannot be confirmed as complete or incomplete. Most likely, the command was received and the action completed, but the system could not get a confirmation. Please check your vehicle to be sure. Troubleshooting: If you are located in the coverage region (consult our coverage map) and if the problem persists, please contact us with location details at *SUPPORT@ifar.ca*

Start trouble*
The engine failed to start remotely. When known, the reason is displayed.

Vehicle trunk open command.

EVO START

*Depends on vehicle and installation type. In order to receive the vehicle statuses, you must be located within the network coverage area, and your smartphone must be connected to the internet via cellular or wifi.

ADDITIONAL INFORMATION

AUTHORIZING ADDITIONAL USERS

You can allow up to 3 additional users to control the vehicle from the application.

STEP 1	The owner must generate a custom code with the application.
STEP 2	Give this code to the new user (The new user must have the application installed and have a valid login)
STEP 3	The new user must register the vehicle in the application (if not already registered) and activate using the newly generated code.

TRANSFER OF OWNERSHIP

Follow the steps below to remove a vehicle from the owner list and deactivate all additionally registered users:

| STEP 1 | Current owner must generate an activation code using the application and give this newly generated code to the new owner. |
| STEP 2 | The ownership transfer will be effective immediately after the new owner registers the vehicle using the generated code in the application. |

DELETING A VEHICLE (OWNER)

Although you can delete a vehicle from the application, you will need the original activation code in order for another user to control the vehicle in future. Otherwise you will have to go to your certified installer and present a proof of ownership. Fees may apply.

PIN FEATURE (PARENTAL CONTROL)

For security reasons, it is recommended you configure a 4-digit PIN to prevent unauthorized access to the *EVO-START* application.

CAUTION – WARNINIG

IT IS THE RESPONSIBILITY OF THE **REMOTE CAR STARTER OPERATOR** TO:

- ensure that the vehicle is parked in a safe and responsible manner.
- ensure that the vehicle is not remotely started indoors (garage, underground parking).
- ensure that the vehicle is not remotely started with a passenger inside.
- ensure that the gearshift lever is in the NEUTRAL position and the parking brake is engaged on manual transmission in order to avoid accidents upon remote starting.
- when leaving the vehicle, ensure that the gearshift lever is in the "Park" position for an automatic transmission in order to avoid accidents upon remote starting. (Note: Make sure that the vehicle cannot start in "Drive" position.)
- ensure that the remote starter is disabled or put into valet mode before servicing. When servicing the vehicle, enable VALET MODE.

WARNING : NEVER LEAVE CHILDREN OR ANIMALS IN A REMOTE-STARTED VEHICLE UNATTENDED.
